

FA 150 SD-WR

Product description:

The FA 150 SD-WR system cover is a conduit lead-through for Kabuflex R plus cable conduits for use in the FA 150 VBF front flange.

The advantages are the system's interaction with the FA 150 VBF front flange and a flexible coupling connection using tightening straps, including a yellow adapter ring, for the gas-tight and pressure water-tight feed-through of Kabuflex R plus cable conduits.
