

Fibre net installation set

Product description:

The Fibre net installation set is an assortment case comprehensively equipped with Fibre net accessories. As a complete set in the field of indoor fibre optic infrastructure, it contains the required components for installations in network levels 4 and 5. Lightweight, compact, and transportable, the accessories are always readily available stored in an individualised insert and can be refilled as required.

The transparent L-BOXX 102 in FRÄNKISCHE design protects its contents from mixing, loss, dirt, and splash water and can carry up to 100 kg. The Fibre net installation set type 10 also includes our popular FRS pipe shears.

Special features

Compatible with the L-BOXX system as well as with van rackings by numerous well-known manufacturers, including Sortimo.
