## RainControl building connection shaft for stormwater

PP/PE building connection shaft D<sub>A</sub> 400 according to DIN EN 13598-2;  
colour: black outside and blue inside

### Technical data

Application:	as flushing and inspection shaft for stormwater sewers in the fields of municipal wastewater, industrial buildings, for stockyards and in landscaping	
Material / raw material:	shaft bottom: PP (polypropylene)	extension pipe: PE-HD (polyethylene)
Specification:	according to DIN EN 13598-2	
Outside diameter: D <sub>o</sub> [mm]	400	
Shaft height: [m]	0.80	1.50
Technical description:	Building connection shaft D <sub>o</sub> 400, 3 inlets KG coupling DN 150 with factory-mounted sealing elements and sealed with end plugs and 1 outlet Robukan SMR coupling DN 150.	
Miscellaneous:	waterproof connection between shaft bottom and extension pipe
