

SES-E gunmetal finish

Product description:

SES-E is a push-fit steel end cap made of rolled mild steel, gunmetal finished, in black.

This push-fit steel end cap is used for Staro Steck-ES varnished steel conduits. An advantage is that edge protection is provided.

VDE 0605
DIN EN 61386-21

Special features

This product is suited for the installation of circuit integrity cables (E30/ E60/ E90) and has been tested in the system.

SES-E gunmetal finish

Material properties			Fields of application		
Zero halogen	DIN VDE V 0604-2-100		on plaster	• machines	•
Low smoke	DIN EN 61034-2		under plaster	• hot asphalt	•
Non-flame propagating	DIN EN 61386-1	•	on wood	• under screed	•
UV-resistant	DIN 53387		underground installation	prefabricated construction	•
Highspeed			in concrete	• outdoor	

Chemical properties	
Resistant to	fats, oil and most oil additives contained therein
Limitedly resistant to	neutral to slightly alkaline substances
Not resistant to	acids

Risk analysis

The product has been manufactured and tested according to the harmonized standards 61386-1 and 61386-21 in the sense of harmonization legislation of the EU. All safety-relevant tests have been adhered to. This product poses no further risk.

Hotline

Since technical developments cannot be foreseen, electrical installations should provide the possibility to be expanded at any time.
