

Building drainage

UniControl 400 shaft

Easy to handle, universal PE-HD shaft system, DN/OD 400; with sand trap; colour black. UV-resistant; with 2 connections DN 200 as 180° shaft or with 3 connections as 90° wye shaft; universal connection options DN 100-DN 200 using reducers and adapters

Technical data

Application:	universal flushing, inspection and collection shaft with sand trap for civil engineering applications. Not watertight!	
Material / raw material:	PE-HD (polyethylene)	
Nominal diameter (DN):	350	
Outside diameter: D _o [mm]	400	
Inside diameter: D _i [mm]	350	
Designs:	2x DN 200 180° shaft	3x DN 200 90° wye shaft
Shaft height: [m]	1.50	
Effective height: [m]	1.20	
Sand trap: [m]	0.30	
Miscellaneous:	Extension of the shaft with extension pipe and coupling; shaft covers see StrabuControl accessories; connection of pipes DN 100-DN 200 using reducers and adapters	
Accessories:	see price catalogue UniControl 400 accessories
